Rev. Dr. Nott, of Franklin, Conn., brother of Pres. Nott, Union College, is ninety years old. He was first settled where he now remains 60 years ago, and still performs all his public duties without assistance. Two entire generations have passed away in the town since his settle-

Tr Two lads, classmates of the University of ment: Philadelphia, went out on Saturday to shoot robins, and after this was over concluded to have a sham duel. They were to ight with powder only, but unfortunately one of the barrels of one the gans had not been discharged, and on firing the contents were lodged in the face of one of the parties .-His wounds are not serious.

Austin Moss of Raleigh, N. C. was killed on the 30th by the accidental discharge of a pistol which he held in his hand.

DRAMATIC .- Mr. Burrell, late manager and lessee of the Arch street Theatre, Philadelphia, has been cowhided by Mrs. Madison, engaged there during his management as one of the stock company. Mr. Burrell made no resistance.

MELANCHOLY ACCIDENT .- A young child of Mr. Hughes, was burned to death by its clothes taking fire at Cincinnati on the 31st.

OREGON INDIANS .- The Oregon Indians believe in the doctrine of metempsychosis. The present race of beasts, birds, reptiles and fish were men who once inhabited this earch. These they suppose still to retain their peculiar language which they can impart to those people into whom they may pass. Such people are esteemed conjurors or med-icine men. They seem also to entertain notions of witchcraft, similar to those of the Pilgrim Fathers. Dr. Whiteman states that one of them shot himself through the abdomen, last July, having done the same thing two years before After shooting himself, he prepared to depart, mounted his horse and was off. He returned again in a short time, pre-tending to be a new man. His body was preserved from the shot by a very thick leather shirt. This is equal to some of Joe Smith's Mormon miracles.

A CHILD STOLEN!-A German woman, living on Western Row, with her little daughter three years old has for a year past supported herself by washing, her husband, a worthless drunken brute, named Diedrich, having left her lest January. She occupied a second story room, the windows of which opened on a large yard. On Sunday night, Mrs. Diedrich fastened the door and went to bed with her child; but on waking the following morning, she found one of the windows up, and the child gone, with the little stock of money, bout \$35, which she had saved from her hard earnings to educate her daughter. There being marks on the wall outside, it is evident that the whief (who the woman thinks is her husband,) ascended by a ladder. Her grief may be imagined, but not described.

[Cincinnati Message. UNWELCOME VISITORS .- A few days since a fine large rattle-snake made his appearance in the poultry yard at the race track, near this place. The turkies and chickens surrounded the gentleman, who was lying upon a a sand heap, adorned with a rich variety of colors. The tur-keys were crying quits, the chickens were mute; but so intent were they, that they did not move for the person who ran to kill him, but remained until he was shot, when the charm was broken. Two days after his mate was killed near the same place, in the yard; the one measured five feet three inches, and had fourteen rattles and a button; the other had [Arkansas Gazette. eleven rattles and a button.

MINUTE MECHANISM .-- By a measurement lately made be one skilled in curiosities, it is found that the silk worm's thread is so fine that one drachm of it will ex-tend a distance of one hundred and eighty-five miles and ninety-two feet; while the same weight of a common grass-spider's thread will reach two hundred and twelve miles and

STEAMBOAT SUNK .- The steamboat Marietta while on her passage from Nashville to this city, struck a snag yesterday morning near Patriot at a place called Lord-ing, and sunk immediately. FIRE IN SCOTTSVILLE.—A correspondent writes under date of November 2d, thus:

"Our village has been visited by a calamity of rare occurcurrence. On Friday night the grocery stores of Messrs. J. Reed and G. Bristol were destroyed by fire. The buildings were the property of Mr. Peabody, and I understand were fully insured—also the goods of Mr. Reed. Mr. Bristol was without insurance, and loses his all."

BRIG ELIZABETH.-We learn from the Exchange Books that Capt. Pedrick, who left Cape Henlopen on Friday afternoon, reports that this vessel was still ashore on the beach, but that Capt. Mathews had undertaken to get her off, in which he would probably succeed in the course

COPPER MINE.—The mineral wealth of the great West is vast of an increasing importance; not a year passes but that new discoveries are made. Dr. John Hays has discovered upon his premises at Copper Harbor, 180 miles from the Sault St. Mary, in Michigan, a mine of copper ore of therichest kind. Specimens have been analyzed, and it has the cream of the sault St. Mary in Michigan, a mine of copper ore of the sault St. Mary, in Michig

DEATH WARRANT .- Gov. Thomas has signed the death warrant of William S. Chrise, convicted of murder an Allegheny county court, Md. He is to be executed on Friday, the 24th inst., at 2 o'clock.

There is a man traveling over the Western States preaching and exhorting, who calls himself an Indian, and says he is brother to Osceola, the famous Seminole. He pretends to have been converted to Christianity by a revela tion from heaven similar to that which appeared to St. Paul, and this happened when he was a child. He says the light was visible to him for ten hours of a dark night, during which he heard a voice calling him, which he afterward aswhich he shot down several of our fellow citizens, and this after the heavenly revelation! FIRTH & HALL, of Franklin Square, New York, are our only GENERAL AGENTS for the United States of America; and that neither Horatio Smepheard Moat nor George Taylor, our late Agents, are in any way authorised to vend Morison's Vegetable Universal Medicines. As many imitations are in circulation, this Caution becomes highly necessary. All persons selling our Medicines in the United States must have the authority of the before-named Messis. Firther Hall.

The above caution, emanating from the "British College of Health, London," will be hailed with the warmest enthusiasm by the friends of the Hygeian System, inasmuch as it tends to capose and oppose the worthless counterfeits which have been extensively circulated by those who are as destitute of moral principle, as they are ignorant of the "healing art." The invaluable medicines of the British College may be obtained in their original purity of several gentlemen who have taken agencies in several of the different States, whose names will be found in the "New York Courier and Enquirer."—They can be had also in the original packages of the following sub-Agents, viz.

Poor Child, he is wasting away, said a friend of ours the other day—we have doctored him till we are tired, and it all does no good; his breath is so offensive, and he starts frightfully in his sleep; his appetite is ravenous, and still he is but a skeleton. We recommended her to try Sherman's Worm Lozenges, as possibly he might be troubled with worms.—She did, and the first dose brought away 78 worms. Three doses entirely cured him, as they have thousands of others.

I can'l sleep, says one, my cough is 30 incessant, it seems as if I should choke to death. If he would only use Sherman's Cough Lozenges, he would be cared in a short time. They often cure the most distressing cases in a few hours.

My head will split, says another. Sherman's Camphor Lozenges will cure any case in less than twenty minutes, and no mistake. They cure seasickness, palpitation of the heart, lowness of spirits, despondency, and the depression of spirits after dissfpation. They operate like a charm on the discurbed nervous system. Caution should be observed in procuring the genuine Sherman's Lozenges and Plasters, or you may have some miserable trash imposed upon you.

JAYNE'S EXPECTORANT.-Look at our bills of mortality, and you will find that Consumption is more destructive to human life in this country than any other disease. We all know that cough, like the warning of the disease. We all know that cough, like the warning of the rattle-snake, always precedes, as well as accompanies this terrible scourge. It is a fai rpresumption that every Cough may terminate in Pulmonary disease, if not checked early, and where the risk is so great, the danger o imminent, it is astonishing that individuals should be found mad enough to neglect the means of cure. Dr. Jayne's Expectorant can be readily procured in any part of the United States, and the experience and voluntary testimony of thousands, the results of chemical analysis and of medical science, all point it out as the best preparation ever invented by man, for the cure of all diseases of the lungs, chest, wind-pipe, and other organs connected with the process of respiration. WASHINGTON ELIXIR.—A pure Vegetable Compound.—"Nature's God has secreted in the vegetable kingdom, safe, sure and speedy remedies for all diseases; to search for and discover these, is a part of man's allotted toil." This well known assertion of Diosconides, one of the most profound of the ancient philosophers, has received another evidence of its truth and wisdom, in the discovery of the Washington Elixir, which, for its many virtues may be called a God-send to the afflicted! It is only necessary to say of it, that hundreds of our best citizens can attest its almost magic power in thoroughly curing that most intolerable of all diseases—
